

BIOCHEMISTRY, MOLECULAR, CELLULAR & DEVELOPMENTAL BIOLOGY, MASTER OF SCIENCE

Graduate Studies

Graduate Study

The Graduate Group in Biochemistry, Molecular, Cellular & Developmental Biology offers programs of study and research leading to M.S. and Ph.D. degrees. Biochemistry, Molecular, Cellular & Developmental Biology is a broad, interdepartmental program.

While an M.S. may be obtained while pursuing a Ph.D., only Ph.D. applications will be accepted. Master's degree offered only en route to Ph.D.

Preparation

Appropriate preparation is an undergraduate degree in a biological or physical science. Preparation should include a year of calculus, physics, general chemistry and organic chemistry, and courses in statistics, biochemistry, genetics and cell biology.

Degree Requirements & Program Coordinator
