

DESIGN, BACHELOR OF ARTS

College of Letters & Science

The Department of Design offers a creative, challenging, and flexible approach to the study of design with emphasis on socially responsible, human centered, and sustainable practice.

The Program

Foundation courses: Introduction to Design; Design Drawing or Drafting and Perspective, Form & Color, and Graphic Design & Computer Technology; and one class in Design History/Theory/Criticism from the DES 040 series; are required of all design majors. Additional coursework in the student's area of interest is required for the Preparatory Subject Matter. Depth Subject Matter courses provide: (1) further exploration of design principles and conceptual, formal and technical issues; (2) conceptual and critical development through a series of history and theory classes; (3) in-depth studio experience with projects that demonstrate a research-based, iterative design process. Optional capstone class. A more detailed explanation is available through the Design Advising office in 101 Art Building; 530-752-0890.

Portfolios

Portfolios are not required for admission to the major. However, it is highly recommended that design students maintain an updated portfolio of work for faculty and professional evaluation and consideration for enrollment in specialized courses, including independent study, group study and internship.

Internships, Careers, & Study Abroad

Design students are encouraged to supplement their coursework with internships in design firms, museums, and design-related businesses. Design graduates go directly from this program into further graduate study, or professional work including exhibition, fashion, information, interior architecture & product (lighting & furniture), textiles, visual communications (digital, environmental & print), and sustainable design. In addition, students have become entrepreneurs through freelance and commissioned work in many related areas. The Department of Design encourages students to experience design education abroad through a variety of sponsored programs.

The major requirements below are in addition to meeting University Degree Requirements (<https://catalog.ucdavis.edu/undergraduate-education/university-degree-requirements/>) & College Degree Requirements (<https://catalog.ucdavis.edu/undergraduate-education/college-degree-requirements/>); unless otherwise noted. The minimum number of units required for the Design Bachelor of Arts is 68.
